

Mini-Skills

02_Eraser layer blending

1. Open the *02_Eraser layer blending* folder, and then open all 3 images in Photoshop:

door.jpg

highway.jpg

sand dunes.jpg

2. In the *door.jpg* image, use the **Polygonal Lasso Tool** to select the door and shutters—don't worry about being too exact with your selection.

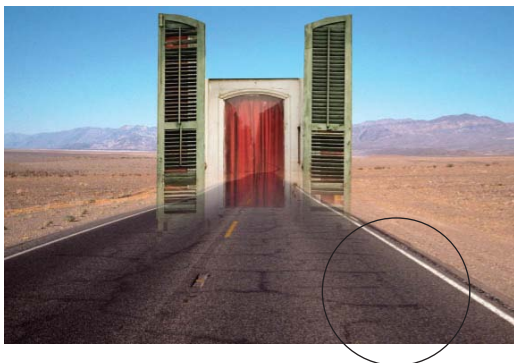

Move...

3. Use the **Move Tool** to drag 'n' drop the door onto the *highway.jpg* image

4. Use the **Eraser Tool** to blend the door with the background.
Erase the door using these settings:
Diameter = 900 pixels, Hardness = 0%

5. Try blending the *sand dunes.jpg* onto the highway image using the same Eraser Tool technique. Have fun!
